XML & Web Services

JULY 25 - 29, 2016

WE are glad to announce a Programme on XML and Web Services, July 25 – 29, 2016, that we hope will help fill the knowledge and skill gaps of your IT personnel in this area. We give below the summary of the programme.

Introduction:

Internet Banking is one of the very popular channels of banking. The Internet makes it possible to exchange information almost instantaneously - anytime, anywhere – breaking the boundaries around organizations and their IT systems. The term “Zero Latency Enterprise (ZLE)” was coined by Gartner mainly to identify the organizations that exchange information with employees, customers, regulatory bodies and partners etc in real time. In ZLE, business events trigger system events that post actions and send responses across organization(s) by exchanging information.

Technologies like XML and Web Services make the dream of achieving ZLE a reality. XML allows us to define the data tags just like the way we define the data items in a database table. XML was basically designed to describe the data that has to be exchanged across many participating agencies in a business. XBRL – XML Business Reporting Language, IFX – Interactive Financial Exchange, OFX – Open Financial Exchange etc. are evolving as standards for banking and finance related business communication. RBI also is gearing up for the adoption of XBRL for business reporting.

Web Services make functional building-blocks like “retrieving an online bank statement” accessible over standard Internet protocols independent of platforms and programming languages. Banks can offer web services to customers so that customers can embed the banking functionality into their business applications.

Objective:

To impart the latest know-how on inter-business communication and financial reporting based on the power of XML and web services technologies.

Contents:

XML Evolution, XBRL, IFX, OFX, XML Editors, XML Database, XML Import/Export tools, and many more things related to XML technologies like XSD, web services, UDDI etc.

Profile of Participants:

Executives of Banks, Financial Institutions and Insurance Sector.

End Use:

By the end of this workshop, participants will be fully equipped with the knowledge of XML, can find even better applications of inter and intra business communication.

Faculty:

Faculty of IDRBT, Guest Speakers from the Industry & Practitioners.

Fee & Nomination:

The fee for the programme is Rs. 35,000/- + Service Tax 14.5% = Rs. 40,075/- per participant can be remitted through NEFT (details furnished). It includes boarding, lodging, training, course material, kit, and other infrastructure overheads. The Programme will commence at 9.30 am on the first day and conclude by 5.30 pm on all the days.

IDRBT Bank Account Details for NEFT transfer:

Account Name :	IDRBT
Bank :	Axis Bank Limited
Branch :	Mehdipatnam Ring Road Branch, Hyderabad
Account No. :	426010100018823
MICR Code :	500211012
IFSC Code :	UTIB0000426

Nominations, should be sent latest by **JULY 11, 2016**.

Please provide the following information for the nominations from your Bank:

- 1) Name of the Official :
- 2) Bank :
- 3) Designation :
- 4) Official Postal Address :
- 5) Mobile /Phone No. :
- 6) Email address :
