

Data Security and Privacy

August 17 – 18, 2017

Coordinator: **Dr. N. V. Narendra Kumar**, Assistant Professor, IDRBT

e-mail: nvnarendra@idrbt.ac.in

Introduction

Data security and privacy have become a challenge for the organizations today due to the growth and proliferation of data, and the continued barrage of data breaches. The implications and costs of security breaches are huge and encompass everything from loss of jobs, to loss of revenue, to PR nightmares. Analyzing the risk of sensitive data, and devising strategic measures to ensure its safety are paramount.

Objective

To provide an exposure to the technologies and best practices for preventing data leaks.

Contents

- * Data security and privacy
- * Data leakage issues and their business impacts
- * Technology solutions for data leakage prevention
- * Implementation challenges
- * Best practices

End Use

The participants will have a thorough understanding of the tools, technologies, standards and best practices for controlling data leaks.

Who Can Participate?

Scale I to IV officers working in the Information Security and IT operations divisions.

Faculty

Faculty of IDRBT, Guest Speakers from the Industry & Practitioners.
