Programme on

Incident Response Management

Coordinator: Dr. M. V. Sivakumaran

November 27 – 29, 2017

Incident Response

Incident Response Management

November 27 – 29, 2017

Coordinator: **Dr. M. V. Sivakumaran**, Assistant Professor, IDRBT

e-mail: mvsivakumaran@idrbt.ac.in

Introduction

A security breach or an attack has to be handled properly to contain its immediate impact as well as its after effects. A cross functional Incident Response Team (IRT) is required to be put in place to handle incidents in a professional manner, to preserve and protect the organisation's assets and reputation. This programme seeks to cover the entire gamut of Incident Response to provide adequate inputs for creating IRTs which can work effectively and cohesively to contain and mitigate the effects of incidents.

Objective

To provide the participants with an in-depth coverage on the extent of planning and preparation needed to handle incidents through their multiple phases.

Contents

- * Preparation and planning for IR
- * Identification of incidents and actions to be taken
- * Containment of impact and collateral damage
- * Eradication of all traces of intrusion or malicious code
- * Recovery of data, software and plugging vulnerabilities
- * Lessons Learned from the incident analysis and preparing for future
- * Active role of forensics in this area

Who Can Participate?

Officers in IT Operations and Security roles. Level: From Scale I to IV.

End Use

Participants would get a comprehensive understanding of the role and responsibilities of IR Teams. They would be able to improve the policies and practices in use in this area in their bank, so that Incident Response Management capabilities of the bank can be strengthened.

Faculty

Faculty of IDRBT, Guest Speakers from the Industry & Practitioners.
