September 04 – 08, 2017

Cyber Defence for Banks

September 04 – 08, 2017

Coordinator: **Dr. Rajarshi Pal**, Assistant Professor, IDRBT

e-mail: prajarshi@idrbt.ac.in

Introduction

Banks have increasingly become targets for cyber attacks as the criminals eye for financial gain. The attackers target banks infrastructure. Recent years have seen a series of malware based attacks like crypto-ransomware and attacks on SWIFT infrastructure. DDoS is also envisaged as a emerging threat for banks. There are attacks exploiting customers too. Examples include phishing/vishing scams or exploiting vulnerabilities of the devices that customers are using. Hence, banks are required to adopt manifold strategies to combat cyber attacks. At one hand, they have to embrace new technologies to protect their infrastructure. On the other side, they have to take awareness initiatives for their employees and customers.

Objective

The objective of this program is to enlighten the participants with the knowledge of cyber defence. In turn, it will help banks to strengthen their cyber security posture. The five-day program aims to cover several aspects of cyber security and cyber forensics. A little bit knowledge of relevant clauses of IT Acts also help participants to understand their position in the techno-legal scenario that arises due to cyber attacks.

Contents

- * Cryptography and HTTPS
- * Malware analysis
- * Defense against APTs
- * Web Application Security
- * Defence against DDoS
- * Phishing and countermeasures
- * Transaction analysis
- * Authentication techniques
- * Security Operations Center
- * VAPT
- * Mobile Banking Security
- * Cyber Forensics
- * Legal coverage under IT Acts

End Use

The program will strengthen the participants in cyber security. They will be able to deploy appropriate technologies and strategies to counter cyber threats.

Who Can Participate?

Staffs from IT department and/or CISO office of banks can attend the program.

Faculty

Faculty of IDRBT, Guest Speakers from the Industry & Practitioners.
