IT Operational Risk Management

Coordinator: Dr. N. P. Dhavale

JANUARY 08 – 10, 2018

IT Operational Risk Management

January 08 – 10, 2018

Coordinator: Dr. N. P. Dhavale, Associate Professor, IDRBT

e-mail: npdhavale@idrbt.ac.in

Introduction

Risk Management is a process to identify, control and manage the impact of uncertain harmful events, commensurate with the value of the protected assets. IT risk can be defined as any threat to information technology, data, critical systems and business processes. Failure to identify, assess and mitigate IT risk sets the business up for serious security breaches and financial losses down the line. Understanding IT risk helps increase information system security, reduce management costs and achieve greater compliance posture. Today's IT risk environment is more threatened than ever due to the growth in sophisticated malware attacks and security vulnerabilities. Regulations continue to increase, placing additional costs on organizations to meet these new requirements. Organizations need an intelligent approach when it comes to assessing IT risk and managing compliance. The banks and their IT staff should understand what risks exist and how business risks are related to the use of IT. The ultimate goal is to help banking organizations to better manage IT-related mission risks.

Objective

This programme gives an overview of various IT risks, risk assessment strategies and risk mitigation policies. In addition, it also contains both the definitions and the practical guidance necessary for assessing and mitigating risks identified within IT systems.

Contents

This programme gives insight into various IT risks associated with banks and then a course of action to deal with those risks. The major contents follow:

- ★ IT system characterization, threat identification and vulnerability analysis
- ★ IT Risk Assessment
- ★ IT Control Risks: Methods, Categories and Techniques, COBIT Framework
- ★ Risk Mitigation measures such as Business Continuity Planning and Disaster Recovery

Who Can Participate?

IT/Non-IT Personnel from Banks and Financial Institutions from Scale I to IV.

End Use

To provide the desired level of security and reliability to IT operations of a bank in a cost-effective manner.

Faculty

Faculty of IDRBT, Guest Speakers from the Industry & Practitioners.

Who Can Participate?

Officers of Banks/Financial Institutions/Insurance Sector who are working in and/or managing data centres. Level: Scale I to IV.
