## Introduction

With the implementation of Core Banking Solution, every bank has set up a data center. Most of the banks are now passing through a stabilization phase. With growth in business, now, the focus is more on scalability, efficiency, and improved performance of the data center. In this context, this programme helps managers of various data centers to improve the operations of their data centres to the optimum level in tune with international best practices.

## Objectives

- \* To understand the concepts and intricacies of data centers
- \* To explore and experience data center management practices to improve efficiency and effectiveness in this crucial area of operation.

## Contents

- \* Data Center Design and Planning
- \* Data Centre Infrastructure Management (Building, Power, HVAC, Cable, Physical Layer)
- \* Business Continuity Planning and Disaster Recovery
- \* Greening Data Centre
- \* Virtualization and Cloud Computing
- \* Data Centre Auditing
- \* Issues and Challenges in Data Centre Management
- \* Case Studies

## Special Feature

This programme includes a field visit to a state-of-the-art data centre in Hyderabad. This will provide the participants an opportunity to identify the areas where their own data centre needs improvement in infrastructure, policies or practices.

## End Use

Participants will gain comprehensive understanding of how to effectively manage the data centre environments.

## Faculty
