### Introduction

The growing demand for digital banking and electronic payments has added a lot more options to the existing variety of payments systems and delivery channels. Managing these multiple channels, ensuring efficient, satisfactory, safe and speedy payment services to banking consumers is becoming a daunting task for bankers. Technology changes, limitations, switching, reconciliation challenges, and settlement related issues demand all the time, money and attention from banks to stay ahead in this competitive environment.

This programme seeks to provide all the answers and options for your issues, concerns and challenges related to Payment Systems.
