# Programme on Emerging Authentication Techniques for Banks

Coordinator: **Dr. M.V.N.K. Prasad**

May 13 – 14, 2019

## Emerging Authentication Techniques for Banks

May 13 – 14, 2019

Coordinator: Dr. M.V.N.K. Prasad, Associate Professor, IDRBT

e-mail: [mvnkprasad@idrbt.ac.in](mailto:mvnkprasad@idrbt.ac.in)

### Introduction

The retail customers of banks have benefited the most by the use of technology based systems: Core Banking, delivery channels such as Automated Teller Machines, Internet Banking and Mobile Banking, to name a few. Hence, the most important requirement now is the need for identifying the customer who would no longer be visiting the branch premises, but would be accessing services of the bank through the new delivery channels. Authentication plays a vital role especially in the cases where the customer is not present in front of the banker or its authorized representative. Banks can authenticate users through multiple ways. These range from the simple systems such as a combination of the username and password to complex systems such as biometric and/or one time usage based variable tokens.

### Objective

To explore various authentication methods for different delivery channels and challenges in implementing the methods.

### Contents

- \* Biometrics
- \* Biometric Standards
- \* Electronic Authentication Guidelines
- \* Visual Cryptography
- \* Multifactor Authentication
- \* PKI, etc.

### Who Can Participate?

Officials from Banking, Financial and Insurance can participate in the programme. From Scale I to IV.

### End Use

Participants will have a better understanding of various authentication technologies.

### Faculty

Faculty of IDRBT, Guest Speakers from the Industry & Practitioners.
