Introduction

Vendor management is the key to efficient and effective functioning of an IT department in a bank. Vendor management is saddled with several challenges including identifying the right vendor and the right solution, ensuring that the solutions meet their expected requirements, and continuing support from vendors. What banks need is to equip their IT teams with the skills relating to vendor selection and management. This is a tailor-made programme to address this specific need.

Objective

To understand the principles and practices of vendor management/procurement management processes.

Contents

- * Vendor Management Concepts
- * RFPs and Service Level Agreements
- * CVC Guidelines
- * Vendor Relationship Management
- * Outsourcing Concepts
- * Case Studies

End Use

Participants would be able to understand where care is to be taken by them while dealing with IT vendors in the banking industry.
